Activity report

The department of Visual Communication organized a Workshop on "Story to Screen- an art" by the resource person Mr. Vetri who is a screen writer, director for movies, short film and web series. The session started by telling the basic aspects of screenplay such as One line, Log line, Treatment etc. He enhanced the creative aspects of screen play such as Props, Dialogue, voice over, Mind voice, Camera movements, body language and action etc. He explained the importance of the 3 act structure for a movie where it includes character introduction, unstinting incident, main plot opens, crisis and falling action. Later, the students had an interactive session with him where they discussed about story structure and its importance like arranging the story's elements into a specific chronological order to elicit the perfect emotional response from the viewers. The students also had discussions about various films and their story structure where different aspects of the movies were viewed. Overall the session was very interactive and helped the students to develop the ideas for making a screenplay.

Activity Report

The Department of Visual Communication Organized an activity of MOU Signing Ceremony and a Guest Lecture by the CEO Mr. Ranjith Sliver Queen. In his note our guest pointed out by saying the success or failure might differ but what retains the most is the consistency. The ability to learn is one of the most important skills to have in life, let alone in entrepreneurship. If someone is building a business, however, the ability to learn is required for success. The ups and downs an entrepreneur goes through are unavoidable. If a person is able to learn in any situation, even failure, they have the skills necessary to become a successful entrepreneur. Being creative, versatile, and resilient in the face of great challenges can help the beginning entrepreneurs. He also stated an important tip by saying consumers are more likely to appreciate your product when they receive more than they pay for. The second most thing is, You can meet people who may become contacts or customers. Checking out Instagram and Facebook for groups you can join to enhance your business. He also insisted to students that they may be able to sell the skills directly to others in the group and they may find work by networking with other people in the groups.
