Language Laboratory

English Language Laboratory established by the Department of English in 2015, it aims at facilitating the learners to gain mastery in the use of English. The essential purpose of the lab is to provide students a platform to enhance English language skills, communication skills and to practice soft skills. The laboratory is well equipped with various software packages for training the students. The language laboratory is very helpful in language teaching as well as developing interactive and group communication skills in an effective manner. The students are given training in communication, confidence building, career development, report writing, resume writing and self-awareness. The English language Lab is used to assist students to engage with interaction via computer-based exercises. The English Language lab provides advanced features such as authentic recorded materials, spoken by different native speakers, that expose the students to the near – ideal pronunciation of native speakers. The facilities of the Language Lab are used extensively by English Literature students for training as part of their curriculum. A blended methodology of language teaching is adopted in the language lab with the teacher explaining the language concepts, guiding the students through the different modules and then the students proceeding to practice them individually at their own computer systems in the lab.

The main objectives of the Language Laboratory are:

- To provide the learners to a variety of self-instructional, learner friendly modes of language learning.
- To facilitate the learners to practice better pronunciation through stress on word accent, intonation and rhythm and also to enhance the vocabulary of the learners.
- To guide the learners to use language effectively to face interviews, group discussions and public speaking.
- To enrich the proficiency of the learners through continuous engagement and exposure to elements of the English language.
- To assist the students to get rid of fear and anxiety while speaking English and also to overcome their Mother Tongue influence.
